KHYBER PAKHTUNKHWA-PAKISTAN

Department of Zoology

Vice Chancellor's Message

Welcome to Women University Swabi, a university that is committed to empower women through higher education and provide them opportunities to work in a wide array of settings such as education, business, industry, health, and social services sectors.

To me, the job of a university is not only to produce degree holders and commercially marketable human resources, but I believe it is more than that. Universities are required to produce loyal, honest and enlightened human beings who can empathetically understand the needs of society, reverentially work in both national and international community, and take better care of the future generations.

Bachelor of Science in Zoology

Introduction

The department of zoology was established in 2013 and is one of the five departments in the faculty of biological sciences. The department is providing teaching and research in various zoology disciplines like physiology, endocrinology, developmental biology/ embryology, reproductive physiology, parasitology, human genetics and fisheries. The department has one of the most highly trained faculty of zoology comprising of 3 assistant professor, 6 lecturers and one lab Assistant

All the faculty members are PhD and M. Phil holders. Well-equipped core labs and specific research labs are available for M. Phil.

The department has regular bonds with institutions like PARC, NARC, NIH and PCSIR. The department is receiving research project funding from the PSF and HEC. The department also holds regular invited seminars by well-known scientist for the benefits of its research students and faculty.
